

We are a market research company and we are looking to recruit university students to work three to five days a week (Mondays, Tuesdays, Wednesdays, Thursdays and Saturdays) from 9am-4pm with one hour break at 12pm-1pm for a duration of three-four weeks. The job involves going out to certain locations in Paphos area (each day will be in two locations close to each other) to observe and record information on traffic. You will be working in pairs and will be using your own car (one car for both).

If you are interested, please contact Antigone on 99525563 for further details.
