

Pafilia Property Developers Ltd is seeking to recruit a **Junior Site Engineer** in Paphos.

The role involves reviewing architectural and structural drawings, coordinating with project managers, architects, and consultants, verifying site conditions prior to construction, preparing execution and contingency plans, ensuring material quality, monitoring subcontractors, maintaining accurate records, and ensuring compliance with health, safety, and regulatory requirements.

Candidates should hold a degree in Civil Engineering. Fluency in Greek and English and strong computer skills are essential.

Interested candidates may send their CV to human.resources@pafilia.com
