

JEAN MONNET CENTER OF EXCELLENCE AI-2-TRACE-CRIME

Training Event

“Artificial Intelligence and the Protection of Human Rights”

The Jean Monnet Center of Excellence AI-2-TRACE-CRIME at Neapolis University Pafos, Cyprus, is pleased to invite you to its 2026 Executive Training Event titled "*Artificial Intelligence and the Protection of Human Rights*". The event is supported by the NUP UNESCO Chair and the UNITWIN/UNESCO Network "*Human Rights and Governance: the Rights, Individuals and Communities faced with the new challenges of a Globalized World in Crisis*". It is also organized in the context of the European University Alliance initiative.

Date: Tuesday 4 November 2025, 09:00-14:00

Location: Amphitheatre ‘Ammochostos’, NUP Building, Danaes 2, Pafos

Structure of the event: The keynote speaker for this event will be **Associate Professor Georgios Pavlidis**, who will deliver a presentation on the theme "*Artificial Intelligence and the Protection of Human Rights*". His address will be followed by structured discussions and expert contributions from members of our Center. The session will then open up to a discussion and audience Q&A, encouraging active engagement and the exchange of views among all participants.

Objective of the event: This event aims to critically examine how emerging technologies and AI are reshaping crime prevention, investigation, and policing. The discussion will focus on the ethical, procedural, and practical implications of these developments for law enforcement agencies, judicial systems, and society at large. By bringing together law enforcement professionals, compliance officers, academics, and students (especially postgraduate students and PhD candidates), the event seeks to foster informed debate and raise awareness of the evolving role of law enforcement in an increasingly digital world.

Certificates of participation will be issued at the end of the training.

Please make sure to sign the attendance sheet.
